Line Up Out of Order

Name	Instrument
Tjeerd	Mic (vocals) + monitor
Eric	Guitar (electric) + Boss GT-5 (no cabinet)
Lars	Guitar (electric) + DSM Humboldt – Simplifier DLX (no cabinet)
Maarten	Bass Guitar (electric) + Tech 21 Sansamp Bass Driver DI v2 (no cabinet)
Dave	Drums + AKG mics

Stageplan Out of Order

Vocal (mic), Monitor for Vocals, to be provided by Sound Engineer

XLR connections on stage from mic (vocals) , electric guitars (Boss GT-5 & Revv amp), bass guitar (Sansamp) and drum mics to stage mixer (band) are arranged by Out of Order.

We use a Behring X-air 18 to create for each band member a personal in-ear mix. Each band member has the opportunity to adjust the in-ear mix via Mixing Station app on personal mobile phones (connected via own Wifi router to Behringer X-air 18).

Mixer (front of house) connects to on stage mixer (band), see mixer connections in/out overview below

Mixer (band) connections overview

in-ear system, including frequencies

- Lars : 518.200 MHz (Sennheiser IEM G4-A band)
- Maarten : 537.700 MHz (Sennheiser IEM G4-A band)
- Erik : 5,8 GHz (NUX B-7PSM Wireless in-ear monitor system)
- Dave : fixed line
